

WATERJET CUTTING

Capabilities Statement

With over 30 years experience in Waterjet cutting applications, we can do your custom fabrication and hard tooling development with a prompt turn around. We are suppliers for the many areas of Aerospace and other Commercial Companies, subcontractor for several 2nd and 3rd tier Aerospace companies, and have been ISO certified since 2002, currently ISO 9001:2015/AS9100D certified. Titanium forgings, steep chamfers in graphite epoxy, 10" thick aluminum and bullet-proof glass; all equal *DS&T Waterjet cutting at its best!*

FACILITY • Built 2008 • 14,000 sf • 22' clear height

EQUIPMENT

- Waterjet—3 Flow International Waterjet Cutting Machines.
- Cutting Area—72" x 144" x 10"
- Material Size—96" x 360" x 10"
- Tolerance—+/- .003"

CERTIFICATIONS & CODES

- AS9100D:2016 Certified
- ISO 9001:2015 Certified
- Fracture Critical
- Boeing Registered
- Woman-Owned Small Business
- SAM Registered
- ITAR Compliant
- Duns 088035352
- Cage Code: 1QFW7
- NAICS 332710, 336419, 333517, 333515, 332999, 332322, 332323, 339950, 339999, 332313
- Dynamic Small Business Registered
- Militarily Critical Technical Data Agreement
- Joint Certification Program - Cert. #0071566

ADDITIONAL CAPABILITIES

MACHINING

- CNC Milling
- Drilling and Tapping

FABRICATION

- Welding—Certified AWS D1.1 (Mild Stl), D1.2 (Alum), D1.6 (SS)
- Forming—250 ton Press, 1/4" x 120"

DEFINITIVE SOLUTIONS & TECHNOLOGIES, INC.

Commitment to Excellence, Innovation and Perfect Parts

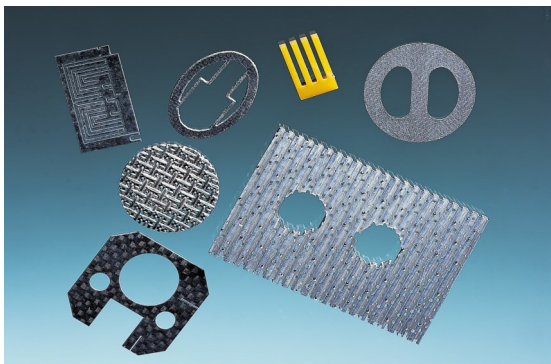

DS & T machines with Dynamic Waterjet®
produce zero taper parts.

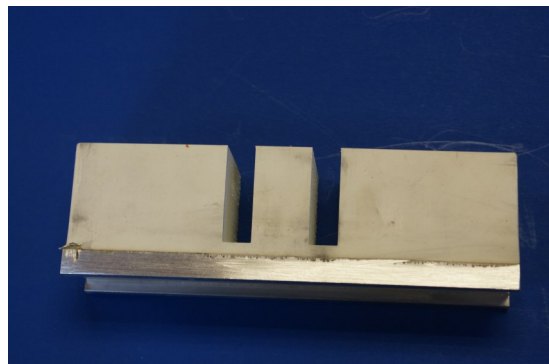

Steep chamfer on graphite composite.

Various parts cut from aerospace materials.

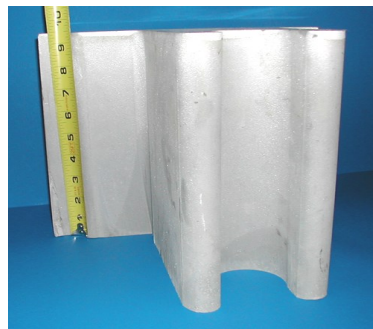

Rubber extrusion puller cleat.

Leaded nuclear glass.

Parts and materials up to 10" thick.
